MAHATHIR MOHAMED

SOFTWARE DEVELOPER

Ramanathapuram | +916380114331 | mahathirmd143@gmail.com

PROFESSIONAL SUMMARY

Innovative Senior .NET Full Stack Developer with 5.2 years of experience in designing, developing, and delivering enterprise-grade web applications using .NET 8, C#, ASP.NET MVC, Web API, and Microservices. Skilled in SQL Server optimization, EF Core, and Dapper, with 2 years of experience in React.js for building modern, responsive, and user-friendly web applications. Adept at implementing secure authentication and authorization using JWT, Basic Authentication, and Windows Authentication, architecting scalable Microservices and RESTful APIs, and delivering secure, high-performance solutions across Logistics, Banking, Retail POS, and Travel domains. Experienced in working with SQL Server, PostgreSQL, and MySQL, integrating third-party APIs, optimizing application performance, and developing maintainable, scalable software following industry best practices. Strong collaborator in Agile/Scrum environments with hands-on experience in Git, code reviews, mentoring junior developers, and delivering high-quality software from requirement analysis through production deployment.

TECHNICAL SKILLS

- Programming Languages: C#, JavaScript, SQL, HTML5, CSS3, SCSS
- Backend: .NET 8, ASP.NET Core, RESTful APIs, EF Core, Dapper, ADO.NET, Express.js
- Frontend: React.js, Next.js, Bootstrap, Responsive UI/UX, UI Theming (Light/Dark/Multicolor)
- Databases: SQL Server, MySQL, PostgreSQL, Stored Procedures, Query Optimization
- DevOps & Cloud: GitHub, Azure DevOps (basics), Docker (basics)
- Architecture & Patterns: Microservices, Monolithic, MVC, Layered Architecture, CQRS, Clean Architecture
- Tools & IDEs: Visual Studio 2022, VS Code, SSMS, MySQL Workbench, pgAdmin, Postman, IIS

PROFESSIONAL EXPERIENCE

Easy Outdesk Pvt Ltd - Senior Software Developer

Oct 2022 – Dec 2025 | Pondicherry

- Developed and maintained enterprise-grade applications using .NET 8, C#, ASP.NET MVC, Web API, and Microservices across Logistics, Banking and Retail POS.
- Designed and implemented scalable Microservices with Ocelot API Gateway to enhance application scalability and maintainability.
- Built secure RESTful APIs using JWT-based Authentication, Basic Authentication, and Windows Authentication for enterprise applications.
- Developed responsive web applications using React.js and Next.js, enabling seamless data management and transaction tracking through real-time API integration.
- Optimized SQL Server and PostgreSQL databases using EF Core, Dapper, stored procedures, and query optimization techniques for efficient data access and improved application performance.
- Developed business-critical modules including Cargo Booking, Container Tracking, Truck Allocation, Banking Middleware, POS Billing, Approval Workflows and Background Job Automation.
- Mentored juniors, conducted code reviews and technical interviews, collaborated with clients and delivered high-quality solutions in Agile/Scrum environments using Git.

Tripwerkz India Pvt Ltd - Software Developer

Dec 2020 – Oct 2022 | Chennai

- Developed and deployed microservices-based applications for a global travel platform.
- Built REST APIs & frontend modules in React.js to handle bookings, payments, and third-party integrations.
- Integrated third-party APIs (TBO Holidays, Hotelbeds, etc.) for travel services.
- Improved performance and maintainability by implementing EF Core and modular architecture.
- Collaborated with cross-functional teams in an Agile environment.

PROJECTS

Cargo Bridge Logistics Management System – Easy Outdesk Pvt Ltd

A comprehensive logistics management system with:

- Cargo booking, container tracking and shipment management
- Operational and management reporting using RDLC
- RESTful API integration with secure role-based access
- Developed using Agile/Scrum methodology with Unit Testing

Tech Stack: .Net 8, MVC, C#, SQL Server, RDLC

Integrated Truck Management System (ITMS) – Easy Outdesk Pvt Ltd

A transportation and yard management solution with:

- Truck allocation and empty container tracking
- Microservices architecture with Ocelot API Gateway
- PostgreSQL integration for high-volume transaction data
- Led a team of 2 developers following Agile/Scrum practices

Tech Stack: .Net 8, MVC, C#, PostgreSQL, Microservices, Ocelot, RDLC

Banking Dashboard – Easy Outdesk Pvt Ltd

A secure banking dashboard solution with:

- Remittance creation and transaction enquiry services
- Secure RESTful APIs with JWT Authentication
- WCF service integration for legacy banking systems
- Middleware development for enterprise banking applications

Tech Stack: .Net 8, Web API, MVC, C#, WCF, SQL Server

Hypermart POS Supermarket Billing Application – Easy Outdesk Pvt Ltd

A retail Point-of-sale application with:

- Billing, invoicing and sales reporting
- Inventory and transaction management
- SQL query and stored procedure optimization
- Unit Testing and production support

Tech Stack: .Net 8, MVC, C#, SQL Server, RDLC

Dynamic Input Screen (DIS) – Easy Outdesk Pvt Ltd

A configurable dynamic form generation platform with:

- Database-driven dynamic form generation
- Responsive UI using React.js and Next.js
- Real-time REST API integration
- Form validation and configurable workflows

Tech Stack: React.js, Next.js, Express.js, MySQL

Database Management System (DMS) – Easy Outdesk Pvt Ltd

A Windows desktop application for database administration with:

- CRUD operations and approval workflows
- Data validation and reporting modules
- User and role management
- Database maintenance utilities

Tech Stack: .Net 8, C#, Windows Forms, SQL Server, RDLC

Background Job Console Applications – Easy Outdesk Pvt Ltd

A background processing and automation solution with:

- Scheduled jobs for data synchronization
- Batch processing and automated notifications
- Error logging and monitoring
- Business process automation

Tech Stack: .Net 8, C#

Scrap Management System – Easy Outdesk Pvt Ltd

A scrap inventory management application with:

- Scrap inventory and approval workflows
- Reporting and audit trail management
- Inventory transaction processing
- Developed following Agile/Scrum methodology

Tech Stack: . NET 8, MVC, C#, SQL Server, RDLC

Tripwerkz (Travel Tech Platform) – Tripwerkz India Pvt Ltd (tripwerkz.com)

A comprehensive travel booking platform offering hotels, flights, tours, transfers and event booking with:

- Developed responsive React.js frontend modules and RESTful APIs
- Integrating third-party travel APIs including TBO Holidays and Hotelbeds
- Implemented secure booking workflows and real-time availability
- Ensure transparent pricing, seamless booking experience and scalable application architecture

Tech Stack: . NET Core 3.1, C#, EF Core, ADO .NET, React.Js, Microservices, SQL Server, Crystal Report

---

E D U C A T I O N

Bachelor Of Computer Application (BCA) – Syed Hameedha Arts & Science College (2016 – 2019)
